ABOUT ME

Highly dedicated and dynamic final year Information Technology student with consistent top academic performance. Natural leader and team player with outstanding communication and interpersonal skills, serving on the school's Leadership Team and university committees as well as several project leads.

Lateral thinking with a high level of problem-solving skills and analytical ability. I am currently supporting multiple high school learners in various subjects to reach their full potential.

Experienced South African ambassador and passionate supporter of local charities, with interests in modeling, reading, dancing, and creative hobbies.

Core values: integrity, respect, tenacity, humility, and kindness.
